Table D-14. Work-related training taken by employed science and engineering master's degree recipients in 1997 and 1998, by occupation: April 1999

		Total employed	Type of work-related training			
Occupation	Total employed	who took any type of work- related training ¹	Management training	Training in occupational field	General professional training	Other training
All occupations	139,200	92,800	20,000	86,700	23,600	6,800
Total scientists ²	26,200 6,400 4,200 6,300 10,200 7,300	37,500 17,300 3,300 2,000 3,400 8,000 3,500	6,000 3,700 S S S S	35,700 16,700 3,200 1,900 3,100 7,800 3,100	8,700 4,800 S S 1,000 S S	2,300 S S S S S S
Total engineers ²	28,900	19,100	4,100	17,600	5,200	1,500
Total other occupations		36,200 7,900	9,900 3,600	33,500 6,600	9,600 2,700	3,100 S
Health and related occupations ³ Educators other than S&E	2,000	1,500	S	1,400	S	S
postsecondarySocial services and related occupations Technicians including computer		6,000 7,900	S 1,700	5,700 7,800	1,600 S	S S
programmers	3,300	3,900 2,400 6,600	\$ \$ 2,100	3,700 2,200 6,200	1,300 S 1,900	\$ \$ \$

Respondents may have taken more than one type of work-related training. Therefore, column entries will not add to "Total employed who took any type of work-related training."

KEY: S = Data with weighted values less than 100 or unweighted sample sizes less than 20 are suppressed for reasons of data reliability.

NOTES: Details may not add to totals because of rounding.

Training was during the period April 15, 1998, to April 15, 1999.

These estimates of 1997 and 1998 college graduates are obtained from a sample survey of individuals receiving bachelor's or master's degrees in science or engineering fields.

SOURCE: National Science Foundation/Division of Science Resources Statistics, National Survey of Recent College Graduates, 1999

² Science and engineering occupations include postsecondary educators. For more details, see technical notes.

³ Health-related majors are not included in sample.
